

Thrive Church

ANNUAL REPORT

THRIVECHURCH.COM

A letter from pastors Jacob & Hannah

As we look back on 2025, we are overwhelmed with gratitude for what God has done through the people of Thrive Church.

When we reflect on this past year, we don't just see numbers on a page or projects completed, we see faces, stories, and moments where heaven met earth. We see students encountering Jesus for the first time. Families finding a spiritual home. Leaders stepping into purpose. And a church choosing, again and again, to say yes to God's call to reach people far from Him.

Throughout 2025, God moved in powerful and undeniable ways across every generation of Thrive. We experienced the highest level of life-change in our church's history, with record salvations and baptisms across Sundays and midweek ministries. More people than ever stepped into community through Thrive Groups.

We've watched God pour out His Spirit on the next generation in extraordinary ways. Wednesday nights at Elevate have been marked by salvations every single week. Over a thousand students raised their hands to follow Jesus this year, and many received their very first Bible. In Thrive Kids, children didn't just attend church, they encountered Jesus, with over half responding to salvation and countless stories of kids begging their parents to come to church.

Beyond our walls, Thrive continued to be a river of hope to our city and beyond. Through Thrive Backpacks, we doubled our impact delivering hundreds of backpacks to teens walking through some of the hardest moments of their lives. We served our city in tangible ways through LOVE Week, partnerships with local organizations, and consistent outreach efforts that moved us from occasional moments to ongoing mission. What started as opportunities has grown into trusted relationships and open doors.

As we look through this report, our prayer is that you don't just see progress, you see promise. Every number represents a life. Every investment reflects faith. Every win points back to God's goodness and to people like you who chose to build His Kingdom.

The truth is, none of this happens without partnership. Your generosity, prayers, and obedience are essential. You are not simply supporting a church, you are helping create spiritual homes, raise up leaders, rescue the hurting, and reach a generation that desperately needs hope. As we step into the future, our hearts are full of faith for what God is still going to do. The fields are ripe for harvest, and we are committed to sowing faithfully, stewarding wisely, and believing boldly for what's next.

Thank you for building with us. Thank you for believing with us. Thank you for being part of the story God is writing at Thrive.

With love and gratitude,

JACOB & HANNAH

Stories of life change

When our family first started coming to Thrive church, I quickly learned it was not by chance that we walked through those doors. I was seeking help and direction with healing my family from all of the storms we have been through both individually and together. My first sign of love and light was watching my youngest son get baptized at Thrive Church. He was the first of my children to get baptized and it brought tears to my eyes. I started to serve with Thrive Kids shortly after, and really prioritize coming to church no matter how busy our lives got.

Next, my middle son stepped into attending Elevate Youth, and my husband began to serve with Elevate as well. Slowly but surely we all started finding fellowship, accountability, and opportunities to help others. Things like Thrive Groups, Flourish, 45 Nights and Courageous have given us so many memories we will never forget.

Watching my family grow with Thrive has been a huge blessing. I am watching my kids heal, find friendships, and grow closer to God every day. I find joy in learning about God as I serve alongside some of the most amazing people in my community. My husband and I have gone through both a miscarriage, and the blessing of a healthy pregnancy among many other things, and our Thrive community has been right there with us, supporting us through it all. We love you, Thrive Church!
